## FOOTWEAR CATALOGUE

BESPOKE, MODULAR AND STOCK FOOTWEAR

*Handmade In Great Britain Since 1972*

## OUR FACTORY

Dacey Ltd have been manufacturing handmade footwear since 1972. We manufacture Stock, Modular and Bespoke footwear to order, draft and cast. All of which are available in all of the styles shown in this catalogue. (Please note that some of the more complex designs are subject to an additional cost surcharge as indicated by \* after the name of the footwear)

As our footwear range has modernised over the years, so to have our production methods. Our footwear uppers are now designed and patterns cut using CAD CAM technology. We are now in the process of installing CAD CAM footwear design and introducing last milling technology.

Wherever possible our footwear is machine lasted and standardised sole units are used for production.

We are the first company to offer a PU Sole unit as standard on the full range of footwear types including our bespoke range. The units are very hard wearing and help to achieve extremely lightweight flexible footwear resulting in high compliance rates and reduced repair costs.

Importantly, for the more complex cast footwear, we can still utilise many of the more traditional methods of manufacture, this includes hand lasting, hand finishing and individual pattern cutting. We are also one of the few companies with the ability to manufacture full welted footwear.

We are able to offer all clients a fast, efficient service with the added value of free back-up technical knowledge. This unrivalled customer service results in well fitting, hard wearing, attractive footwear every time.

To complement our footwear range, our state-of-the-art computer aided design and FFO milling machinery enables us to manufacture all types of functional foot orthoses on site. In addition to this, we provide our own range of semi-bespoke and modular insole systems for both the adult and paediatric markets.

# OUR PRODUCTS

## STOCK FOOTWEAR

Our stock footwear is made to a standard measurement and comes in a range of classic and casual styles, including a distinctive selection of sports and leisure footwear.

- Round and square toe options available
- Half sizes available
- Split sizes available
- Six different last fittings
- 25% surcharge on exchange or return
- Leisure stock footwear is non returnable
- All leisure footwear and shoe styles are diabetic friendly as standard

## BESPOKE FOOTWEAR

All catalogue styles and colours are also available as a bespoke product.

- Manufactured to a footwear draft or cast
- Footwear drafts available on request
- All leisure footwear and shoe styles are diabetic friendly as standard

## DIABETIC FOOTWEAR

All leisure footwear and shoe styles are diabetic friendly as standard with minimal internal stitching. Extra padding options to vamps, quarters or full uppers are available upon request.

## MODULAR FOOTWEAR

A full range of modular footwear is available on all catalogue styles and colours to provide patients with semi-bespoke fashionable footwear.

- Six different last fittings
- Variable depth insole combinations
- Sizing charts on page 42 and 43
- Order form on page 45
- All leisure footwear and shoe styles are diabetic friendly as standard

## FOOTWEAR ADAPTATIONS

We carry out a full range of footwear adaptations and also offer a repair and adaptation service for patient's own footwear.

- Adapted footwear is non-returnable

# LEISURE SHOES
